Abstract: This will provide a platform for sharing knowledge and results in theory, methodology and applications of Machine Learning, IOT and Block Chain. Authors are solicited to contribute by submitting articles that illustrate research results, projects, surveying works and industrial experience that describe significant advances in the areas of Machine Learning, Internet of Things and Block chain.

Topics of Interest: Original and unpublished papers are invited in the following topics and not limited to:

- Machine learning Applications
- Machine learning Security issues
- Learning Problems
- Deep Learning
- AI for IOT
- Block chain and IOT
- Energy Efficiency and sustainability in IOT
- Human Interaction with IOT
- IOT Edge and Cloud Architecture
- Web of Things
- Block chain Issues and trends
- Block chain Privacy and Scalability
- Block chain based security for the IOT
