Session Title: Smart Healthcare Informatics (SHI):
Enhancing Patient Care with Technology

Session Chair:

Dr Iwin Thanakumar Joseph S,

Assoc Prof, Dept. of CSE,
Koneru Lakshmaiah Education Foundation
Vijayawada, India.

Dr Velliangiri S,

Asst Prof, Dept. of Computational Intelligence,
SRM Institute of Science and Technology,
Kattankulathur Campus, Chennai, India

Dr Ahmed A Elngar,

Assoc Prof, Faculty of Computers and Artificial Intelligence,
Beni-Suef University, Egypt

Dr Benson Edwin Raj,

Asst Prof, Dept. of Computer Information Sciences,
Higher Colleges of Technology,
Fujairah Campus, UAE

Topics of Interest: Original and unpublished papers are invited in the following topics and not limited to:

- Telemedicine and Remote Patient Monitoring
- Electronic Health Records (EHRs) and Interoperability
- Predictive Analytics in Healthcare
- Wearable Health Devices and IoT in Healthcare
- Healthcare Data Security and Privacy
- Artificial Intelligence in Medical Imaging
- Personalized Medicine and Genomic Informatics
- Healthcare Informatics in Pandemic Response
- Patient Engagement and Health Apps
- Healthcare Informatics and Chronic Disease Management
- Big Data Analytics in Healthcare
- Natural Language Processing (NLP) in Healthcare
- Telepsychiatry and Mental Health Informatics
- Patient-Centered Care and Informatics

Important Dates:

Summary:

In recent years, the convergence of healthcare and technology has given rise to a transformative field known as "Smart Healthcare Informatics." This emerging discipline leverages the power of data, artificial intelligence, and digital connectivity to revolutionize patient care, streamline healthcare processes, and improve overall healthcare outcomes. In an era marked by rapid technological advancements, this integration of smart computing and healthcare informatics has the potential to redefine the healthcare landscape fundamentally.

Smart Healthcare Informatics encompasses a wide array of technologies and applications, ranging from telemedicine and wearable health devices to electronic health records (EHRs) and predictive analytics. These innovations are designed to enhance patient care by providing healthcare professionals with timely and accurate data, improving patient engagement, and optimizing healthcare delivery.

This special session explores the multifaceted realm of Smart Healthcare Informatics, delving into key areas, technological breakthroughs, and the profound impact it has on patient care and the broader healthcare ecosystem.

Paper Submission Process: Please submit your research article (in word / pdf format) at the following prescribed email: articleforspecialsession@gmail.com with Name of Special Session mentioned in the subject line on or before **15th January 2024, 5PM IST.**
